Category:	General	Votes:	0
State:	public (all)	Result:	0.00 %
Language:	en	Last update:	02/13/2017 10:31:53

Symptom (public)

When sending the email, receivers tell that my identity is on NUR domain instead of UR domain

Problem (public)

The UR domain is not displayed on the receiving end and people are confused

Solution (public)

Follow the steps forward on TIPS to change the settings (Attached file)
